Power Equipment Maintenance, Inc. Wind Division Opens New Regional Offices

PIEDMONT, SC, May 24, 2010 – Power Equipment Maintenance, Inc. (PEM) has opened its second regional wind office this year in Mason City, Iowa. The office is operated by John Jaunich, Vice President of Wind Services. The first regional wind office was opened earlier this year in Abilene, Texas and is operated by Bill Jacks, Director of Wind Operations.

These regional offices will offer additional field support and allow PEM to offer more immediate maintenance services to its customers in these two main wind turbine populace areas of the upper Midwest and Texas. Both office locations are furnished with over 7,000 square feet of shop, repair and tooling space.
